State Officers

Why are student council activities important to you?

President~Madison Brown

Student activities are important because they provide a sense of unity throughout the school. It gives students the chance to enhance their character and boost their self-esteem as well as their morale. Students who participate in student council events have the opportunity to immerse themselves with a different aspect of their school. They have a chance to interact with peers and faculty on a different level. Once the majority of students are involved in activities and take pride in their school, everyone will have an unforgettable experience and memories to cherish.

Vice President~Emily Cassidy

Student council activities are important to me because they show how much power a group of dedicated students can have. It is so cool to sit down with other student council members with a crazy idea and watch it get planned and executed. Student council activities increase school pride, which is something that is needed to unite the student body and make school more fun for everyone!

Treasurer~Samantha Serrano

Student Council activities bring a school community together. Participating in the events allows students from all grade levels, areas of interest, and backgrounds to bond in events that unify them not just as students, but as people. Student Council is the heart and spirit of every school. The events give the student body a burst in energy, and the opportunity to be themselves in a school setting. Last but certainly not least, being on Bayonne High's SGO has taught me to be the best student leader I can be, and to try and inspire others who also have a passion for helping to make the school a better place. My life would not be the same if I had not participated in Student Council.

Special Projects~Keya Gangadharan

Student council activities are an important part to me because they bring the people of any community closer together. These activities help students get to know other people in their school by working together and they build new friendships along the way. The activities push students to find their leadership potential. Money raised by the activities can benefit the community in a variety of different ways including donations to charities. I believe that student council activities create a friendly and spirited atmosphere in the school and community for everyone.

State Officers

Why are student council activities important to you?

BOE Rep~Cait Slate

Student Council's events and activities are difficult to run, but they are essential to our community. The hard work we put in to make these fundraisers successful helps charities across the state. Although helping these organizations is our main goal, these activities also benefit our student body. Bringing together students and teachers for one great cause is why these activities mean so much to me.

Publications~Leah Watson

Student council activities are important to me because they are so essential to the involvement of students in our schools. They offer so many bonding experiences for each student to be a part of and it makes every individual feel part of something bigger. They not only offer benefits for the schools but also for organizations that our raised money is donated to. They are so important to me because it is rewarding to know that I made a difference somewhere. Student council activities are one of the best parts of my high school experiences!!

Secretary~Colby Thomas

Student council activities are important to me because student council teaches us to open our eyes and ears so that we can envision possibilities to improve our schools and communities. It teaches us the leadership skills that must be learned through experience. It's important to create an open forum in order to bridge the gap between administration and students. It really gives the students a chance to broaden their horizons and use their leadership skills that are important in the future. Most importantly, it feels good to know that something you did made a difference.

State Officers

Why are student council activities important to you?

Charity~Alex Mirabella

Student council activities are important to me because it makes me feel like I can make the changes and have a voice in what I want to see my school achieve. These activities also allow the student body to come together and allow these students to be a part of the bigger picture.

Middle Level Rep~Cole Mitchell

Student council activities are important to me because it helps keep the students involved with our school, often promoting school spirit. These activities can be designed specifically to help the school, community, and charitable organizations. I feel it is important for the students to have fun and feel proud to be a part of their school!

AA~Jackie Rozell

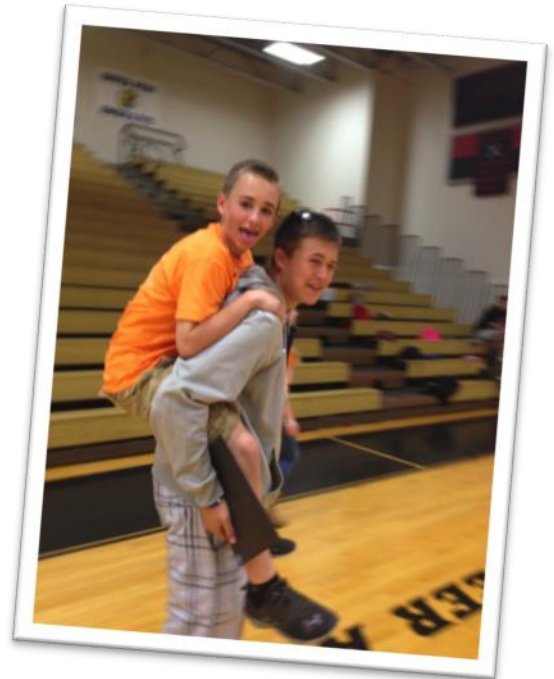

Student council activities are important because it gets students involved not only in their schools but also in their communities. It gives students the opportunity to share their ideas, speak their minds, and contribute to a greater cause such as The HERO Campaign. Student Council activities are important mostly because it lets students be themselves while interacting with other people of all age levels and you can see this here, at LTC :)

AA~Nicky Parekh

Student council activities are important to me because they are what keep the students connected to student council. If student council was just a bunch of boring meetings and what not, how can you expect students to be interested in it? Student council activities show students the fun part of the club. These fun activities are what bring in new people, and new people are never a bad thing when it comes to student council.

AA~Jeff Hunt

Student Council activities are important to me because they build school spirit. Also, they give the future leaders of America an opportunity to participate in service around the community. Fundraising is at ease for the students because of certain activities. Hence, student activities are a necessity for the success of schools.
