

Day 2 – July 14th, 2014

THE LTC LEDGER

...

Daily Poll

Eagles or Giants?

Eagles - 48%

Giants – 52%

What do you hope to learn during LTC?

- "Generally I hope to learn to better my public speaking and to overall become a better leader." – Anna Bower (Summit MS)
- "I want to learn to be a better leader and to learn things to bring back to my school to make it better." - Chasity Coward (Buena HS)
- "I hope to learn how to lead by example." – Sarah Smith (Franklin HS)

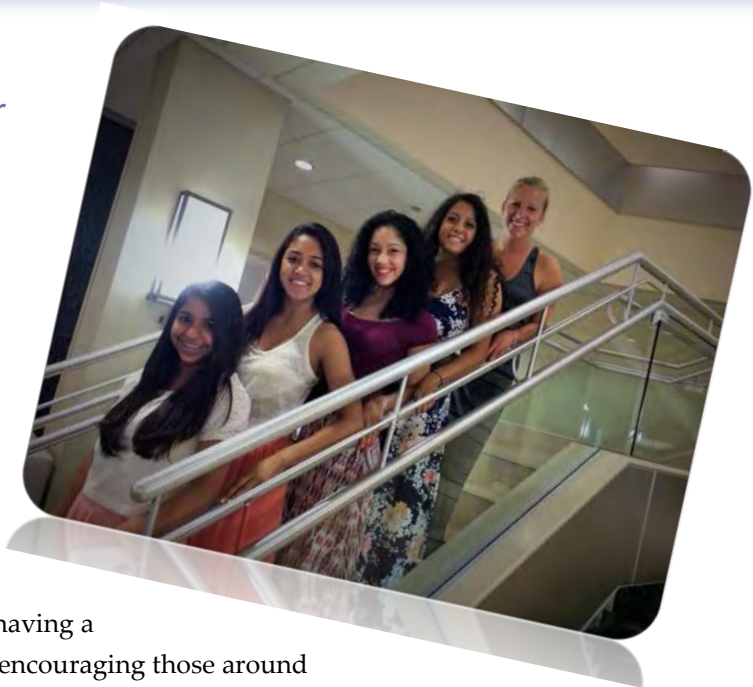

STATE OFFICERS

Why do you feel that Student Leadership is important in your school?

President – Grace Manno

Burlington Township HS

Student Leadership in a school is creating a vision of what the school should be like, and having the initiative to achieve that vision through small strides. Leadership in a school does not have to mean holding a position on student council or being an officer in a club it is having a sincere desire to serve others, taking action, and encouraging those around you. Student leaders are the ones who create a positive school climate and impact the attitude of the entire student body. They are the key to an enriched school experience

Vice President – Jamillia Bell

Rancocas Valley HS

Student Leadership is an important role to have in school. It enables students to grow as future leaders and start their own projects. Thanks to leadership programs and conferences like LTC it helps them gain more experience on how to share their leadership qualities and bring them back to their communities. Without student leadership there would be no voice for the student. Our future definitely looks bright and filled with successful adults.

Publications – Mariela Jiménez

Holy Cross HS

Student Leadership is key in all schools. It opens the door to new friendships, wonderful experiences, and unforgettable memories. A school's environment is not based solely on the faculty, but in majority by the students. Strong positive student leaders, lead to an overall strong and positive student body. The power of influence student leaders have in schools is insane. School spirit is contagious, it takes one person, one *student leader*, to light the match of school pride and participation.

STATE OFFICERS

Why do you feel that Student Leadership is important in your school?

Secretary – Jenna Panek

Monsignor Donovan

At Monsignor Donovan, student leadership is of utmost importance. As a school that prides itself on school spirit and community, student leadership gives students the opportunity to step up to the plate, take initiative, be original, and express themselves. Student leadership is about stepping out of the limelight in order to allow others to shine. By assisting others in expressing themselves, we not only grow as individuals, but as leaders.

Middle Level Rep. – Radhika Shah

Melvin H. Kreps MS

Student leadership is important in my school because it gives all the students a chance to express themselves and speak up for what they believe in. Also, student leadership gets students out of their comfort zones, which helps them grow as an individual. This is why student leadership is important in my school.

Special Projects – Paco Abiad

West Windsor Plainsboro HS South

Student leadership at my school extends beyond the Student Council. One of the great things about my school is that it's not the organizations that make student leaders, but the students are already leaders that make organizations such as StuCo and Peer Leaders all the more valuable to our school. Student leaders are seen in the music department, art department, and especially our athletics department. There is no specific rule that requires High School South Pirates to be student leaders, it's just a part of our tradition of excellence.

Treasurer – Brandon Palazzo

Williamstown HS

Student leadership within the school is very important. School is supposed to prepare us for the rest of our lives. In the real world, businesses and organizations have to be run by the people within them and not the "all powerful" administration. If no one is prepared to take the task of leading, or knows how to be an effective leader, then these things will start to fall apart. Student leadership also adds student input and authority to the school, so that a school run for the students can also be run by the students, to some extent.

STATE OFFICERS

Why do you feel that Student Leadership is important in your school?

State Board of Education Rep. – Russ Bauer

Seneca HS

At Seneca High School, student leadership is everything! We believe that we are a family and support each other's goals. Seneca has effectively created an environment where student leadership grows and flourishes. Seneca initiates new experiences for all students and helps guide them in the right direction. By doing so, every student is afforded the opportunity to experience a successful leadership role of their choosing. Throughout the years, Seneca has continued to expand their programs due to these leadership opportunities.

Charity – Anthony Raspatello

Hamilton West HS

Student leadership is universal as it stretches across our nation and beyond. In my school and in any school student leadership is the determining factor in everyday activities. Whether the school is a fun place to be, organized, lively, and efficient is dependent on student leadership. Faculty and administration can only do so much before students must step in to propel ideas and events to the next level. Beyond the cliché student leadership roles in school is the simple but sometimes not so evident leadership qualities found in students such as sitting with the new kid at lunch, standing up for the right thing or simply picking up a piece of garbage. Student leadership within my school makes every day a new journey worth traveling.

AA – Dana Foedisch

Palmyra HS

Student leadership is important in my school, and every school, because without good leadership events cannot take place. If good leaders are absent from the school, events like Homecoming, Prom, or sports tournaments have no way of happening. Students need to have strong leadership so that things get accomplished. Also, it's important for leaders to be present in our school to set an example for other students. If people take charge and stand up for their opinions, like a good leader does, it inspires other students to do the same.

STATE OFFICERS

AA – Johnny Kay

Palmyra HS

I think that the importance of student leadership in my school is that these people can get results and make sure everything runs smoothly. They are the source of information and can take command when needed. They can also be the decision-makers and the motivators. Leadership is many things, but these are the few that stand out to me

DAY 1 IN PICTURES...
